An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claim 1, line 5, --regions—has been inserted after “outer”.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Lollo on 11/29/2006.

Claims 1, 3-5, 7, 9, 10, 12, and 14 renumbered as 1-9 respectively are allowable.

The following is an examiner's statement of reasons for allowance: the recitation of a window assembly having a window with an opening, a flange attached to a lower region of the window with the flange having a central region which is substantially parallel with a bottom edge of the window opening and at a height at least equal or higher than the bottom edge of the window opening thereby preventing contact between cargo and the bottom edge of the window opening and the outer regions extend at a higher elevation than that of the central region is seen as an unobvious improvement over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
